Summary

Information Technology undergraduate with comprehensive academic experience in full-stack development, cloud deployment, and database management. Proficient in utilizing technologies such as React, Node.js, Next.js, Spring Boot, and Docker to build scalable and efficient web applications.

Education

- **Sri Lanka Institute of Information Technology (SLIIT)** 2022 – 2026
BSc (Hons) in Information Technology, specializing in Information Technology Sri Lanka
- **St.Sylvester's College, Kandy** 2012 – 2020
G.C.E. Advanced Level Sri Lanka

Technical Skills

- **Languages:** JavaScript, TypeScript, Java
- **Frameworks:** React.js, Next.js, Express.js, Spring Boot
- **Databases:** MongoDB, MySQL, Redis
- **Tools Platforms:** Docker, Git, Nginx, GitHub
- **UI Styling:** Tailwind CSS, Material UI

Certifications and Courses

Completed Udemy courses in Java, RESTful APIs, and Flutter development.

Selected Projects

- **Adaptive Phonology and Speech Therapy Assistant (Huruwa)(Ongoing)** —*Flutter, Python, LLMs, LangChain*
 - Developing a therapy generation module using LLMs for personalized Sinhala speech therapy, with voice guidance and AI-generated visuals.
- **Intelligent Quiz Platform (Quiz Genie)** —*Next.js, TypeScript, JavaScript, MUI*
 - Developed a real-time quiz battle system allowing students to compete, track scores, and rank on leaderboards.
- **DevOps-Ready URL Shortener** —*Node.js, Express.js, Redis, Docker, Nginx*
 - Created a containerized web service to shorten URLs and handle redirects, deployed with Docker Compose and Nginx for scalable performance.
- **E-Commerce Platform (Bright Minds)** —*MongoDB, Express.js, React.js, Node.js, Tailwind CSS*
 - Developed a React-based e-commerce platform for children's toys, allowing users to browse products, add items to the shopping cart, and simulate checkout.
- **Driving School Management System (Sarasavi Learners)** —*MongoDB, Express.js, React.js, Node.js, Tailwind CSS*
 - Built an educational management platform for driving schools, enabling fee payments, quizzes, and class assignments for students and admins.
- **Social Learning Platform** —*Spring Boot, MySQL, TypeScript, Tailwind CSS*
 - Developed a social media platform for collaborative learning, enabling users to create and share personalized learning journeys.
- **Bill Management System (Sipsayuri)** —*Next.js, TypeScript, JavaScript, MUI*
 - Created a billing management system for a bookshop, allowing users to track sales, apply discounts, and manage buyer history.
